Health Care Spotlight

Inside a clinic for unhoused people in Silicon Valley’s birthplace

The latest issue of Stanford Medicine magazine explores non-medical factors that impact health as researchers examine how challenges and opportunities present, including why ZIP codes, culture, and support networks matter; how cultural stigma surrounding women’s cancers prevents patients from receiving the support they need; and how a way of life in one region of Costa Rica helps keep cells young. SHE Talks: Reproductive Health Across the Life Span

SHE Talks 2023, formerly the Women’s Health Lunch, delved into the unique challenges women and people of all genders face throughout their reproductive life span. You can now view the recordings of Stanford Medicine’s SHE Talks 2023 presentations on our YouTube channel. Watch the videos >

Taking Action—How You Can Help

We appreciate our community’s support in so many areas, including our ongoing work related to the pandemic. There are various ways you can continue to help in areas of critical need, from blood and plasma donations to improving vaccination awareness.

• Help with urgently needed blood donations
• Advance vaccine awareness
• Support researchers as an organ or tissue donor
• Help stem cells, immunotherapies, or nanoparticles.
• Participate in COVID-19 research
